

## Prolong Transmission Treatment

**Prolong Transmission Treatment** is uniquely formulated with Prolong's patented AFMT™ to treat the metal surfaces of both manual and automatic transmissions. This advanced technology helps to protect your vehicle against costly transmission repair or replacement by reducing excessive heat and friction.

- Formulated with Prolong's patented AFMT™ technology.
- Reduces extreme friction and internal temperatures.
- Promotes smoother, more responsive shifts.
- Compatible with all common transmission fluids and gear oils.
- Suitable for both Manual and Automatic Transmissions.
